Dear Sir / Madam

Maghull Neighbourhood Plan Consultation
SUBMISSION ON BEHALF OF NATIONAL GRID

National Grid has appointed Wood to review and respond to development plan consultations on its behalf. We are instructed by our client to submit the following representation with regards to the above Neighbourhood Plan consultation.

About National Grid

National Grid owns and operates the high voltage electricity transmission system in England and Wales and operate the Scottish high voltage transmission system. National Grid also owns and operates the gas transmission system. In the UK, gas leaves the transmission system and enters the distribution networks at high pressure. It is then transported through a number of reducing pressure tiers until it is finally delivered to our customers. National Grid own four of the UK’s gas distribution networks and transport gas to 11 million homes, schools and businesses through 81,000 miles of gas pipelines within North West, East of England, West Midlands and North London.

To help ensure the continued safe operation of existing sites and equipment and to facilitate future infrastructure investment, National Grid wishes to be involved in the preparation, alteration and review of plans and strategies which may affect our assets.

Specific Comments

An assessment has been carried out with respect to National Grid’s electricity and gas transmission apparatus which includes high voltage electricity assets and high pressure gas pipelines, and also National Grid Gas Distribution’s Intermediate and High Pressure apparatus.

National Grid has identified that it has no record of such apparatus within the Neighbourhood Plan area.

Key resources / contacts

National Grid has provided information in relation to electricity and transmission assets via the following internet link:
http://www2.nationalgrid.com/uk/services/land-and-development/planning-authority/shape-files/

The electricity distribution operator in Sefton Council is SP Energy Networks. Information regarding the transmission and distribution network can be found at: www.energynetworks.org.uk

Please remember to consult National Grid on any Neighbourhood Plan Documents or site-specific proposals that could affect our infrastructure. We would be grateful if you could add our details shown below to your consultation database.

Subject: RE: Maghull Neighbourhood Plan Consultation

Good Morning

Thank you for your email.

I can confirm that the previous assessment was correct, National Grid have identified that it has no record of a such apparatus within the Neighbourhood Plan area. However, the high pressure gas line to which you refer is likely to be a local distribution pipeline (therefore not belonging to National Grid). The local distribution network responsible for Maghull is Cadent Gas and they can be contacted on the details below:
0800 408 5500
wecare@cadentgas.com

I hope this helps answer your query.

Regards

Subject: Maghull Neighbourhood Plan Consultation

Dear [redacted],

Thank you for your response on behalf of National Grid to the Maghull Neighbourhood Plan. In this you state:

An assessment has been carried out with respect to National Grid’s electricity and gas transmission apparatus which includes high voltage electricity assets and high pressure gas pipelines, and also National Grid Gas Distribution’s Intermediate and High Pressure apparatus. National Grid has identified that it has no record of such apparatus within the Neighbourhood Plan area.

Please could you check your records as we are aware of a high pressure gas main which runs just west of the M58 motorway through the Land East of Maghull site. This has a site specific policy, MAG6 in the Neighbourhood Plan. If this gas main is not relevant to your assessment, it might be helpful to provide some brief explanation why not. I will wait for you to confirm or amend your response before I log it. Please let me know if you need to discuss any issues relating to this and I look forward to hearing from you soon.

Kind regards,
Planning Officer
