Community Infrastructure Levy Preliminary Draft Charging Schedule
Draft Practice Note for Off-Site Affordable Housing Contributions

Thank you for the opportunity to provide feedback to the proposed policy.

Network Rail is the public owner and operator of Britain’s railway infrastructure, which includes the tracks, signals, tunnels, bridges, viaducts, level crossings and stations – the largest of which we also manage. All profits made by the company, including from commercial development, are reinvested directly back into the network.

Network Rail has no comments.
