## Crosby Neighbourhood Health Area

The Crosby Neighbourhood Health area is located in the southern coastal section of Sefton Borough. It consists of three wards: Blundellsands, Manor and Victoria.

## Demographics

The Office of National Statistics (ONS) mid-year 2022(30 June) population estimates by ward were used to calculate the population totals for Crosby, Sefton, the North West (region) and England (national):

- Children aged 0–15 made up 16.4% of Crosby’s population (equating to 6,156 residents), compared to 16.9% in Sefton overall, 18.7% in the North West and 18.5% in England.
- Those aged 16–64 accounted for 58.9% (22,118 residents) of Crosby residents, versus 59.7% in Sefton, 62.5% regionally and 62.9% nationally.
- The proportion of residents aged 65 and over was higher in Crosby (24.7% - 9,261 residents) than in the Borough as a whole (23.4%), the North West (18.8%) and England (18.6%).
- The proportion of residents aged 85 and over in Crosby was 3.3% (1,232 individuals), which is comparable to the Borough-wide rate of 3.4%. However, it was slightly higher than the regional rate of 2.4% and the national rate of 2.5%

## Deprivation

The **Index of Multiple Deprivation (IMD)** is part of the UK Government’s Indices of Deprivation and is used to measure and rank relative deprivation across small geographic areas known as Lower Super Output Areas (LSOAs, based on 2011 boundaries). It assesses disadvantage using 37 indicators grouped into seven domains. The most recent IMD was published by the Ministry of Housing, Communities & Local Government on 26 September 2019. In this report, topic-level averages have been calculated using best-fit LSOAs.

- Crosby’s average IMD score (17.33) was lower than Sefton’s (27.04), the North West (27.91) and England (21.67) indicating lower levels of deprivation in Crosby than seen locally, regionally and nationally.
  - Of the 26 Lower Super Output Areas (LSOAs) in Crosby, four were among the 20% most deprived areas nationally. In contrast, five LSOAs were within the 20% least deprived, including one that ranked in the bottom 10% for deprivation.

The **Income Deprivation Affecting Older People Index (IDAOPI)** is a subdomain of the Income Deprivation domain. It measures the proportion of people aged 60 and over experiencing income deprivation. This is based on the percentage of the population in this age group receiving income support, income-based Jobseeker’s Allowance, Pension Credit, or Child Tax Credit (where both the claimant and their partner are aged 60 or over).

- The IDAOPI score in Crosby was 0.15, slightly lower than the Borough average (0.17), regional average (0.19) and national average (0.17) demonstrating a lower level of income deprivation among older residents in Crosby compared to these comparator areas.
  - Four of the 26 LSOAs in Crosby fell within the 20% most deprived areas nationally. Of these, one was in the most deprived 10%. On the other hand, four LSOAs in Crosby fell into the 10% least deprived.

The **Income Deprivation Affecting Children Index (IDACI)** is a subdomain of the Income Deprivation domain. It measures the proportion of children aged 0–15 living in income-deprived families (i.e. those receiving certain benefits or with low household income).

- As with the IMD and IDAOPI, the average IDACI score in Crosby (0.10) was notably lower than in Sefton (0.19), the North West (0.18), and England (0.16), indicating that income-related deprivation among children is less severe in Crosby than in the comparator areas.

- Of the 26 LSOAs in Crosby, only one fell within the 20% most deprived areas nationally. In contrast, 10 LSOAs were among the 20% least deprived nationally, including four that ranked within the least deprived 10%.

**Relative low-income** is defined as a family in low income Before Housing Costs (BHC) in the reference year. A family must have claimed Child Benefit and at least one other household benefit (Universal Credit, tax credits, or Housing Benefit) at any point in the year to be classed as low income in these statistics. Gross income measure is Before Housing Costs (BHC) and includes contributions from earnings, state support and pensions.<sup>1</sup> Department for Work and Pensions.

- In 2023/24, 13.1% of children aged 0–15 in Crosby lived in relative low-income families, compared to 22.3% in both Sefton and England, and 28.0% in the North West. This highlights markedly lower levels of child-related deprivation in Crosby than in the comparator areas.
- There were a total of 804 children living in low income families (relative) in Crosby in 2023/24.

**Fuel poverty** in England is measured using the Low Income Low Energy Efficiency (LILEE) indicator. There are three important elements in determining whether a household is fuel poor: household income, household energy requirements and fuel prices. According to the 2024 English sub-regional fuel poverty statistics (based on 2022 data):

- 11.4% of households in Crosby (approximately 1,891 households) were living in fuel poverty. This compares to 13.9% across Sefton, 14.1% in the North West, and 13.1% across England overall.

## Benefit Claimants

The Department for Work and Pensions (DWP) publishes benefit claimant data across various categories and time intervals:

**Universal Credit (UC)** is a single monthly payment designed to support individuals and households with low income or those who are unemployed. It replaces six legacy benefits: Income-based Jobseeker's Allowance, Income-related Employment and Support Allowance, Income Support, Working Tax Credit, Child Tax Credit, and Housing Benefit. As of August 2025:

- 2,718 residents in Crosby were claiming Universal Credit, representing 12.3% of the population aged 16–64. This is considerably lower than the averages for Sefton (21.3%), the North West (22.0%), and England (19.2%).
  - Among Crosby claimants, 68.0% were unemployed, compared to 69.2% across Sefton, 68.6% regionally, and 66.4% nationally.
- In May 2025, 14.5% of households in Crosby (approximately 2,300 households) were receiving Universal Credit, markedly lower than the rates in Sefton (24.7%), the North West (27.1%), and England (24.2%).
  - 7.6% of households in Crosby were claiming the housing element of Universal Credit, compared to 14.7% in Sefton, 16.3% in the North West, and 15.3% nationally.

**Personal Independence Payment (PIP)** is a non-means-tested benefit that supports individuals with long-term physical or mental health conditions or disabilities that impact daily living or mobility. As of July 2025:

- In Crosby, 1,940 residents aged 16 to 64 were claiming Personal Independence Payment (PIP), representing 8.8% of the population in that age group. This compares to the rates in Sefton (12.1%), the North West (10.3%), and England overall (8.0%).

**Disability Living Allowance (DLA)** is a benefit for individuals under 16 and those aged 65 and over who require support with personal care or mobility due to a disability. It consists of two components, care and mobility, which may be awarded separately or together. As of February 2025:

- 426 children in Crosby received Disability Living Allowance (DLA), representing approximately 6.9% of the local population aged 0–15. This rate is lower than the Borough (10.4%), and regional averages (8.0%), but aligns closely with the national average (7.2%).
- Among residents aged 65 and over, 362 individuals (3.9%) in Crosby received DLA payments. This compares to rates in Sefton and the North West (both 4.5%) and England (3.1%).

**Attendance Allowance** is a non-means-tested benefit for individuals of State Pension age and above who have a disability or health condition severe enough to require regular care or supervision. It is intended to help cover the additional costs associated with personal care needs. As of February 2025:

- 15.7% (1,456) of residents aged 65 and over in Crosby were claiming attendance allowance, compared to rates observed across the Borough (16.4%), the North West (15.1%) and England (13.7%).

**Pension Credits** is a means-tested benefit for individuals over State Pension age who are on a low income. It provides additional financial support to help with living and housing costs. Pension Credit is distinct from the State Pension and is intended to ensure older people have a minimum guaranteed income. In February 2025:

- In Crosby, 935 residents aged 65 and over were claiming Pension Credit, representing 10.1% of that age group. This is lower than the levels seen in three comparator areas (Sefton – 13.0%, the North West – 12.6% and England – 11.1%). These figures indicate a lower proportion of older residents in Crosby relying on income-related support compared to local, regional, and national averages.

**Unemployment** estimates reflect the number of individuals aged 16 and over who are claiming unemployment-related benefits. While this measure provides insight into benefit claimants primarily due to unemployment, it does not align with the International Labour Organisation (ILO) definition, which includes all individuals who are out of work, actively seeking employment, and available to start work. Despite this distinction, benefit claimant data remains a useful indicator for tracking unemployment trends across areas and over time. As of September 2025:

- Approximately 540 residents in Crosby were claiming unemployment-related benefits, representing 1.7% of the population aged 16 and over. Lower than Sefton (2.7%), the North West (3.3%) and England (3.2%).

**Sefton's Emergency Limited Assistance Scheme (ELAS)** provides short-term support to local residents aged 16 and over who are experiencing severe hardship, a disaster, or an emergency. The scheme is designed to meet one-off essential needs, rather than ongoing expenses. Support may include help with the cost of food, gas/electricity, and, in certain circumstances, furniture or domestic appliances. Between April 2024 and March 2025:

- In Crosby, there were 441 applications for ELAS support, equating to 14 applications per 1,000 residents aged 16 and over. This rate is considerably lower than the Sefton average of 36 applications per 1,000 residents.
  - Of those who applied in Crosby, 60.8% were approved, below the Sefton-wide approval rate of 64.2%.

## Children Social Care

Sefton Children's Social Care (CSC) supports families and helps keep children and young people safe from harm by providing a range of services—from early help for families with children to protection for those at risk of abuse or neglect. Please note that some of the children supported by Sefton may not currently reside within the Borough.

**Early Help** provides support to children, young people, and families at the first signs of difficulty, aiming to prevent issues from escalating and to help them reach their full potential. As of 23 October 2025:

- In Crosby, 36 children and young people had an open Early Help plan, equating to a rate of 52 per 10,000 residents aged 0 to 17. Distinctly lower than the overall rate for Sefton, which stood at 135 per 10,000.

**Child Exploitation** - a multi-agency partnership approach is used to safeguard children and young people under 18 from sexual and criminal exploitation. This includes involvement from social workers, police officers, housing officers, education and healthcare professionals, charity staff, and others. Exploitation can take various forms, and perpetrators may subject children to multiple types of abuse simultaneously. As of 31 March 2025, there were:

- 26 out of every 10,000 children aged between 10 and 17 residing in Crosby had an open Child Exploitation case, which is lower than the Borough-wide rate of 40 per 10,000.

A **Child in Need plan** is a formal, multi-agency support plan developed following a Children and Family Assessment. It is designed for children identified as needing coordinated input from education, health, and social care services to meet their needs and prevent significant harm. As of 31 March 2025, there were:

- A total of 64 children and young people aged 0 to 17 had a Child in Need plan in Crosby, representing a rate of 93 per 10,000 in that age group. This was substantially lower than the Borough-wide rate of 168 per 10,000.

A **Child Protection plan** is a formal, multi-agency strategy designed to safeguard a child identified as being at risk of significant harm. It involves assessing the likelihood of harm, identifying protective measures, reducing risk, and promoting the child's welfare. The plan also outlines specific actions for those involved and includes methods for monitoring and evaluating progress. As of 31 March 2025:

- Child Protection plan rates in Crosby stood at 48 per 10,000 residents under the age of 18, which was markedly lower than the Sefton-wide rate of 67 per 10,000. In total, 33 children and young people in Crosby had an active Child Protection Plan.

**Cared for children** are those whose birth parents are unable to provide ongoing care, and as a result, the local authority assumes responsibility for their wellbeing. These children may live with foster carers, in children's homes, or sometimes remain at home while receiving support from the local authority. Care arrangements can be either temporary or permanent, and each child is assigned a social worker to ensure their needs are met and their welfare is safeguarded. As of 31 March 2025, there were:

- There were 26 children and young people originally residing in Crosby that were cared for by the local authority. This equated to a rate of 38 per 10,000 residents aged 0 to 17, which was notably lower than the Borough-wide rate of 94 per 10,000.

**Youth Justice Service (YJS)** works with children and families who have had some involvement with law and order. To support children and families to prevent repeat incidences.

- As of 22 October 2025, 18 per 10,000 children and young people (aged 12–18) in Crosby were supported by the Youth Justice Service, markedly lower than the Borough-wide rate of 37 per 10,000.
- Between July 2024 and June 2025, Crosby had a YJS first time entrants rate of 9 per 10,000 residents aged 12 to 17, this is lower than the Sefton rate of 12 per 100,000 residents (aged 12 to 17).

## Adult Social Care

Sefton received 13,722 unique client contacts to adult social care between November 2024 and October 2025.

- Residents of Crosby accounted for 11.6% (1,594) of the unique client contacts to Sefton Adult Social Care, equating to a rate of 52 contacts per 1,000 residents aged 18 and over, lower than the Sefton-wide rate of 60 per 1,000.

## Community Safety

**Crime and anti-social behaviour** incident data is downloaded monthly from the Police.UK website. Between 1 August 2024 and 31 July 2025, the following were recorded:

- Merseyside Police recorded 1,799 crimes in Crosby, equating to 48 per 1,000 residents, considerably lower than the Sefton-wide rate of 77 per 1,000.
  - 40.1% (722) of crimes reported were violent or sexual offences, representing a rate of 19 per 1,000 residents, compared to 36 per 1,000 across the Borough.
- Reports of anti-social behaviour were also lower in Crosby, with 7 incidents per 1,000 residents, compared to 9 per 1,000 across the Borough. There was a total of 260 reports of anti-social behaviour in the Crosby area during the time period.

**Deliberate fires** data is received monthly from Merseyside Fire and Rescue (MFRAS). 'Fires where the motive for the fire was 'thought to be' or 'suspected to be' deliberate. This includes fires to an individual's own property, others' property or property of an unknown owner. Despite deliberate fire records including arson, deliberate fires are not the same as arson. Arson is defined under the Criminal Damage Act of 1971 as 'an act of attempting to destroy or damage property, and/or in doing so, to endanger life' Ministry of Housing, Communities & Local Government. Between 1 August 2024 and 31 July 2025:

- There were 48 deliberate fires reported in Crosby, equating to a rate of 13 deliberate fires per 100,000 residents, similar to the 14 per 100,000 residents seen in Sefton.

Sefton Street Services receives reports of **environmental issues**, such as fly-tipping, street sweeping, and dog fouling, via online platforms and Sefton's contact centre. Between 1 August 2024 and 31 July 2025, the following were reported:

- Sefton Council received 570 reports of environmental issues from the Crosby area, representing 15 reports per 1,000 residents, notably lower than the Sefton-wide rate of 27 per 1,000.
  - Fly-tipping accounted for 43.0% of all environmental reports in Crosby, a rate of 7 per 1,000 residents, lower than the Borough-wide rate of 14 per 1,000.

## Housing

The Census is conducted every 10 years by the Office for National Statistics (ONS) to provide a detailed snapshot of the population and household composition across England and Wales. Census 2021 took place on 21 March 2021. As part of the survey, participants were asked about the tenure of the property they lived in.

- In Crosby, 12,326 households were owner-occupied, accounting for 77.6% of all households, this is above the averages for Sefton (66.6%), the North West (62.3%), and England (61.3%).
- In contrast, 22.1% of households (3,520) were rented, markedly lower than the rates seen across Sefton (32.7%), the North West (36.9%), and England (37.6%).
  - Of the rented households, 42.3% were let by registered social landlords, slightly lower than the proportions in Sefton (44.1%), the North West (47.8%), and England (45.5%).
  - Meanwhile, 57.7% of rented households were privately rented, marginally higher than the Borough-wide rate of 55.9%, the regional rate of 52.2%, and the national rate of 54.5%.

## Students

The School Census is a mandatory data collection carried out each term, gathering detailed information on pupils and schools. For Sefton, the most recent available School Census data is from January 2025 and covers all students attending maintained schools or academies within the Borough. This report includes data on primary, secondary, special and post-16 students only. Please note that some pupils may live outside the Sefton boundary but attend a school or academy located within it.

- In Crosby, 4,663 pupils were attending a Sefton maintained school or academy (including primary, secondary, special, and post-16 settings), accounting for 13.2% of the total student population across Sefton maintained schools and academies.
- Primary school pupils (Reception to Year 6) made up 56.9% (2,654 pupils) of Crosby's total, slightly higher than the Sefton average of 55.7%.
- Secondary school pupils (Years 7 to 11) accounted for 37.3% (1,737 pupils), lower than the Borough average of 40.6%.
- Post-16 students (Years 12 to 14) represented a larger proportion in Crosby at 5.8% (272 pupils), compared to 3.7% across Sefton.

**'Special educational needs and disabilities (SEND)** can affect a child or young person's ability to learn. They can affect their: behaviour or ability to socialise, for example they struggle to make friends / reading and writing, for example because they have dyslexia / ability to understand things / concentration levels, for example because they have attention deficit hyperactivity disorder (ADHD) / physical ability' Department of Education

- 211 pupils in Crosby had an Education, Health and Care Plan (EHCP), representing 4.5% of all students in the area, lower than the Borough average of 6.3%.
- 13.7% of Crosby pupils (639 students) were receiving School SEN Support, compared to 16.2% across Sefton.

**'Free school meals** are available to pupils whose parents or guardians receive one or more qualifying benefits. These include means-tested Universal Credit, Income Support, income-based Jobseeker's Allowance, income-related Employment and Support Allowance, support under Part VI of the Immigration and Asylum Act 1999, the guaranteed element of Pension Credit, means-tested Child Tax Credit, or Working Tax Credit.' Department of Education

- 15.8% of students (735 pupils) living in Crosby and attending Sefton-maintained schools or academies, from Reception to Year 14, received free school meals. This is markedly lower than the Sefton average of 27.3%.

There are three types of Early Years (EY) provision in Sefton; Childminders, Private, Voluntary, and Independent (PVI) settings, School/Maintained Nursery Schools. As of October 2025, the distribution of these settings are as follows:

- In Crosby there were a total of 22 EY setting; nine child minders, nine PVIs and four School/Maintained Nursery Schools.

**'Elective home education** is a term used to describe a choice by parents to provide education for their children at home or in some other way they desire, instead of sending them to school full-time.' Department of Education As of the 22 October 2025:

- A total of 42 children were electively home educated in Crosby, representing a rate of 9 per 1,000 residents aged 5–16. This is below the Sefton average of 14 per 1,000.

## Health

'Life expectancy at birth reflects the overall mortality level of a population. It summarizes the mortality pattern that prevails across all age groups - children and adolescents, adults and the elderly.' World Health Organization (WHO). The Life Expectancy at Birth 2022-2024 shows:

- Female life expectancy in Crosby is 83.6 years, significantly higher than the Sefton average of 81.5 years.
- Similarly, males in Crosby have a significantly higher life expectancy of 80.1 years, compared to 78.5 years across Sefton.

Low birth weight, defined by the World Health Organization as less than 2,500 grams (5.5 pounds), may result from prematurity, fetal growth restriction, or both. It is a major public health concern linked to higher risks of infant mortality, developmental delays, and long-term health issues.

- According to the 2024 birth registration data, 5.2% of births in Crosby were classified as low birth weight, lower than the Sefton average of 6.8%, this difference was not statistically significant.

The National Oral Health Survey, conducted every two years, assesses the dental health of five-year-olds. Due to small sample sizes the ability to detect statistically significant differences below local authority level is limited. The most recent survey, carried out in 2023/24, reported the following findings:

- 24.6% of children aged five living in Crosby included in the survey had visually obvious tooth decay, lower than the 33.3% seen in the Borough (but not significantly lower).

The National Child Measurement Programme (NCMP) is an annual initiative that records the height and weight of children in Reception (ages 4–5) and Year 6 (ages 10–11) to monitor overweight and obesity levels in primary schools. Aggregated data from 2021/22 to 2023/24 revealed the following trends:

- In Crosby, 9.3% of Reception-aged children were classified as obese, a slightly lower proportion than Sefton's average of 10.9%, though the difference was not statistically significant.
- 21.9% of reception age children in Crosby were classified as overweight or obese, again lower than Sefton 24.9%, though the difference was not statistically significant.
- Among Year 6 children in Crosby, 19.8% were classified as obese, significantly lower than the Sefton Borough average of 23.8%.
- The proportion of Year 6 pupils classified as overweight or obese in Crosby was 33.2%, significantly lower than the Sefton average 37.6%.

Injuries are a leading cause of hospitalisation and represent a major cause of premature mortality for children and young people. They are also a source of long term health issues, including mental health related to experience(s). Public Health Fingertips Crude rate of hospital admissions caused by unintentional and deliberate injuries between 2016 and 2020 show:

- Crosby recorded a hospital admission rate of 94.8 per 100,000 for under-15s due to unintentional and deliberate injuries, this was lower than Sefton's rate of 103.7, however the difference was not statistically significant.
- Similarly, hospital admission rates for unintentional and deliberate injuries among 15–24-year-olds are lower in Crosby (186.9 per 100,000) compared to Sefton overall (215.4 per 100,000), though the difference was not statistically significant.

The Combined Intelligence for Population Health Action (CIPHA) uses GP register data, which includes information on patients' smoking status. As of 25 September 2025, the following figures were recorded:

- 8.7% of patients aged 15 and over who live in Crosby and are registered with a GP are current smokers, significantly lower than the Borough average of 13.4%.

The Census is conducted every 10 years by the Office for National Statistics (ONS) to provide a detailed snapshot of the population and household composition across England and Wales. Census 2021 took place on 21 March 2021. As part of the survey, participants were asked about their health:

- 5.8% (2,161) of Crosby residents reported poor or very poor health, compared to rates in Sefton (7.0%), the North West (6.2%), and England (5.2%).
- 18.8% (6,989) of residents identified as disabled under the Equality Act, in comparison to Sefton (21.9%), the North West (19.4%), and England (17.3%).
- 8.8% (3,251) of residents reported they were disabled under the Equality Act and that their daily activities were limited a lot. This compares to rates in Sefton (10.7%), the North West (8.9%), and England (7.3%).
