Appendix 2 – Assessment Sheets – Sites without Planning Permission
Site ref: 0847
Address 1: Land and Premises at Lancaster Road
Address 2:
Address 3: Birkdale
Settlement: Southport

Source: Call for Sites 2007
Site type: Brownfield
Site area (ha): 3.8595
Net area (ha): 1.00685

Total Yield
2015 - 2020: 35
2020 - 2025: 35
2025 - 2030: 35
Assumed Density (dwellings per ha): 35

Accessibility
Primary School (800 m): N
Local Centre (800 m): N
Health (800 m): N
Railway station (800 m): N
Bus Stop (400 m): Y

Suitability
Conversion of the listed building and sensitive redevelopment of the post-war extensions would likely be acceptable in principle. In the West Birkdale Conservation Area.

Availability
Site currently subject to a planning appeal for a refused application for 57 dwellings (ref S/2013/0890).

Achievability
In an area identified as having positive viability in the 2014 Economic Viability Study (Keppie Massie).

Site Description
Listed former school building, which is vacant and fire damaged. Adjacent former playingfield is not currently in use.

Conclusion
In a Conservation Area, designated as Urban Greenspace and contains a listed building. Site is subject to a current planning appeal relating to a refused application for 57 dwellings (ref S/2013/0890). Conversion of the listed building and redevelopment of the later extensions would likely be acceptable in principle - the assumed net area and yield reflect this. Placed in the 6 - 10 year supply to allow for the resolution of the current appeal proceedings.

**Suitability**

In a 'Primarily Residential Area'. Residential development acceptable in principle.

**Availability**

Council owned site that has been declared surplus.

**Achievability**

In an area identified as having positive viability in the 2014 Economic Viability Study (Keppie Massie).

**Site Description**

Former Council depot. Not currently in use.

**Conclusion**

Council-owned depot in a predominantly residential area, that has formally been declared surplus. Programmed for disposal in the next 12 months. Placed in the 0-5 year supply.

Accessibility
Primary School (800 m): N
Local Centre (800 m): N
Health (800 m): N
Railway station (800 m): N
Bus Stop (400 m): Y

Suitability
Conversion of the existing building acceptable in principle.

Availability
Vacant Council-owned site. Subject to a Cabinet resolution that the site is a suitable location for housing and will be disposed of for housing when circumstances allow.

Achievability
In an area identified as having positive viability in the 2014 Economic Viability Study (Keppie Massie).

Site Description
Attractive historic building fronting onto the coast.

Conclusion
Council owned vacant attractive historic building in good market area. Not currently in the short term disposal programme. Placed in the 6 - 10 year housing supply.
**Site ref**: 9647

### Accessibility

- Primary School (800 m): N
- Local Centre (800 m): N
- Health (800 m): N
- Railway station (800 m): N
- Bus Stop (400 m): Y

### Suitability

- In a 'Primarily Residential Area'. Housing development acceptable in principle.

### Availability

- Subject to a pending planning application for 13 dwellings (DC/2014/02199 - approved 08/05/2015).

### Achievability

- In an area identified as having positive viability in the 2014 Economic Viability Study (Keppie Massie).

### Site Description

- Former School for the Blind building. Currently vacant.

### Conclusion

- Previously subject to planning permissions S/2011/1178 and S/2011/1213 for 22 and 13 dwellings respectively (both now expired). Subject to a pending planning application at 1st April 2015 for 13 dwellings (ref DC/2014/02199 - subsequently approved). Placed in the 0 - 5 year housing supply.
Site ref: 0211
Address 1: Land to the rear of 88-106 Upper Aughto
Address 2: Birkdale
Address 3: Site type: Brownfield
Site area (ha): 0.269

Total Yield
2015 - 2020: 12
2020 - 2025: 12
2025 - 2030: 0
Assumed Density (dwellings per ha): 45

Conclusion
Site controlled by a house builder. Planning Committee resolved to approve the current planning application on 04/03/2015 subject to the submission of acceptable bat survey information and any further conditions required as a result. Placed in the 0-5 year housing supply.

Suitability
Within a 'Primarily Residential Area'. Housing development acceptable in principle.

Availability
Controlled by a house builder and currently subject to a pending planning application for 12 dwellings (ref DC/2014/02030).

Achievability
In an area identified as having positive viability in the 2014 Economic Viability Study (Keppie Massie).

Site Description
'Backland' commercial site in a predominantly residential area.

Local Centre (800 m) Y
Health (800 m) N
Railway station (800m) N
Bus Stop (400) Y

Suitability

In a 'Primarily Residential Area'. Housing development acceptable in principle.

Availability

Site owned by a Housing Association.

Achievability

In an area identified as having positive viability in the 2014 Economic Viability Study (Keppie Massie).

Site Description

Strip of open land adjacent to the Green Belt. A brook runs along the eastern edge of the site.

Conclusion

Site in a local Housing Association's short term development programme. The potential need for an easement adjacent to the brook and the presence of trees onsite may limit the number dwellings that can be achieved. Placed in the 0-5 year housing supply.

### Suitability

Within a 'Primarily Residential Area'. Housing development acceptable in principle.

### Availability

Site owned by a Housing Association.

### Achievability

In an area identified as having positive viability in the 2014 Economic Viability Study (Keppie Massie).

### Site Description

Cleared site formerly occupied by The Priory public house.

### Conclusion

Site owned by a Housing Association that was previously subject to refused planning application DC/2014/00017 (appeal subsequently dismissed). The grounds for refusal were inadequate amenity space for future occupiers - however this can be overcome through a revised layout. A revised application is expected shortly. Placed in the 0-5 year housing supply.

Shopping parade. Most of the shops are now vacant.

**Conclusion**

Small shopping parade owned by a local Housing Association. There is potential to reconfigure the parade to accommodate partial housing development. Within the Housing Association's medium term development programme, and placed in the 6-10 year supply.

- Local Centre (800 m): N  
- Health (800 m): N  
- Railway station (800 m): N  
- Bus Stop (400): Y

---

**Suitability**

In a 'Primarily Residential Area'. Housing development acceptable in principle.

**Availability**

Known owner interest in developing the site.

---

**Achievability**

In an area identified as having positive viability in the 2014 Economic Viability Study (Keppie Massie).

**Site Description**

Cleared site comprising of a car park and former hall. Adjacent to a shopping parade.

---

**Conclusion**

Submitted to the Call for Sites in 2007. Previously subject to a withdrawn planning application for 7 houses (ref S/2012/0250). The former hall was recently demolished and a new application is expected shortly. Placed in the 0 - 5 year supply.

Accessibility
Primary School (800 m) N
Local Centre (800 m) N
Health (800 m) Y
Railway station (800m) N
Bus Stop (400) Y

Suitability
In a 'Primarily Residential Area'. Housing development acceptable in principle.

Availability
Previously subject to outline planning permission for housing (ref S/2003/0096 - now expired). The owner has recently confirmed their intention to pursue residential development.

Achievability
In an area identified as having positive viability in the 2014 Economic Viability Study (Keppie Massie).

Site Description
Small site currently in use for commercial purposes.

Conclusion
Already partially developed for housing although there is scope for additional housing on the undeveloped areas of the site. Relatively low density reflects this. Site has previously secured outline planning permission for housing (ref S/2003/0096), which has now expired. Owner has recently confirmed their continuing interest in bringing this site forward for development. Placed in the 6 - 10 year supply.

### Suitability

In a 'Primarily Residential Area'. Housing development acceptable in principle.

### Availability

Council-owned site. Subject to a Cabinet resolution that the site is a suitable location for housing and will be disposed of for housing when circumstances allow.

### Achievability

In an area identified as having positive viability in the 2014 Economic Viability Study (Keppie Massie).

### Site Description

Garage court area

### Conclusion

Council owned site that was subject to a Cabinet resolution in February 2013 to dispose for housing development. Part of the site still subject to short-term leases, therefore placed in the 6 - 10 year housing supply.

Suitability
Land in the Green Belt and adjacent to a listed building. Conversion of the existing building, and sensitive redevelopment of the outbuildings likely to be acceptable.

Availability
Currently subject to a pending planning application for 6 dwellings (ref DC/2015/00513)

Achievability
In an area identified as having positive viability in the 2014 Economic Viability Study (Keppie Massie).

Site Description
Commercial premises in Green Belt

Conclusion
Site subject to a pending application for 6 dwellings. Whilst located in the Green Belt, partial development is likely to be acceptable under NPPF para 89 (bullet 6). Heritage considerations associated with the adjacent listed building may reduce the number of dwellings to 5. Placed in the 0-5 year supply.

- **Railway station (800m)**: N  
- **Bus Stop (400)**: Y

**Availability**
- Currently subject to pending planning application DC/2014/01312 for 99 dwellings.

**Suitability**
- Housing Allocation in the 2006 UDP. Residential development acceptable in principle. Part of the site known to be at risk of surface water flooding.

**Availability**
- In an area identified as having positive viability (for larger sites) in the 2014 Economic Viability Study (Keppie Massie). Potential for contamination given historic uses.

**Site Description**
- Former industrial units in poor condition. Adjacent to the canal.

**Conclusion**
- Allocated housing site located adjacent to the Leeds-Liverpool Canal. Likely to be contaminated given historic uses and known contamination on adjacent sites. Currently subject to a pending planning application for outline permission for 99 dwellings and a foodstore. Placed in the 6-10 year supply to allow for a detailed scheme to be worked up and to allow for contamination to be addressed.

### Suitability

In a 'Primarily Residential Area'. Housing development acceptable in principle.

### Availability

Subject to a pending planning application for 41 units (ref DC/2015/00825).

### Achievability

In an area identified as having positive viability (for larger sites) in the 2014 Economic Viability Study (Keppie Massie).

### Site Description

Vacant land and buildings

### Conclusion

Subject to recent development interest and an application was submitted in May 2015 for 41 units (ref DC/2015/00825). Ongoing discussions are likely to lead to a revised scheme of around 30 dwellings. Placed in the 0-5 year supply.

### Suitability

In a 'Primarily Residential Area'. Housing development acceptable in principle.

### Availability

Council-owned site currently occupied by several retail units. Subject to a Cabinet resolution that the site is a suitable location for housing and will be disposed of for housing when circumstances allow.

### Achievability

In an area identified as having weaker viability in the 2014 Economic Viability Study (Keppie Massie).

### Site Description

Small parade of shops

### Conclusion

Council owned site which formerly benefited from planning permission for residential development (ref S/2006/0676 - now expired). Previously subject to a Compulsory Purchase Order to acquire the site for development. Earmarked for housing development, involving the relocation of the shops to the vacant land on the opposite side of Harris Drive (along with the Mel Inn public house - site 9622). Were this relocation to not take place, the land opposite would be made available for housing development instead. Placed in the 6 - 10 year supply to allow for these relocations to take place.

Accessibility
Primary School (800 m): Y
Local Centre (800 m): Y
Health (800 m): Y
Railway station (800m): Y
Bus Stop (400): Y

Suitability
In a 'Primarily Residential Area'. Housing development acceptable in principle.

Availability
No known owner interest in developing the site. Multiple ownerships.

Achievability
In an area identified as having positive viability in the 2014 Economic Viability Study (Keppie Massie).

Site Description
A row of residential back gardens

Conclusion
Submitted through Call for Sites in 2007. However, the submitter has subsequently confirmed that the site is in multiple ownerships and cannot be assembled. Not included in the identified housing supply.

Accessibility
Primary School (800 m)  Y
Local Centre (800 m)  Y
Health (800 m)  Y
Railway station (800m)  N
Bus Stop (400)  Y

Suitability
In a 'Primarily Residential Area'. However, the site may be too small to achieve an acceptable development. Entirely within Flood Zone 2.

Availability
Submitted to the 'Call for Sites' in 2007. Current owner intentions are unknown.

Achievability
In an area identified as having positive viability in the 2014 Economic Viability Study (Keppie Massie).

Site Description
Land in commercial use

Conclusion
The site is too small to accommodate 5 dwellings, and is therefore below SHLAA size threshold specified in National Planning Policy Guidance. Not included in the identified housing supply.

Local Centre (800 m): N
Health (800 m): Y
Railway station (800m): Y
Bus Stop (400): Y

Suitability
Within a 'Primarily Industrial Area'. Housing development not acceptable in principle.

Availability
Recently promoted to the draft Local Plan as a retail development site by the owner.

Achievability
In an area identified as having positive viability in the 2014 Economic Viability Study (Keppie Massie).

Site Description
Well used trading estate with numerous business occupiers.

Conclusion
Allocated for employment purposes in an area with an identified shortfall of employment land. Not suitable for housing, and currently being promoted for non-residential uses by the owner. Not included in the identified housing supply.
### Site 6023
**Source** | Call for Sites 2007  
**Site type** | Brownfield  
**Site area (ha)** | 0.3448  

**Address 1** | The Grand Casino  
**Address 2** | 182 Lord Street  
**Address 3** |  

**Settlement** | Southport  

**Site Description**  
Listed former casino building

**Achievability**  
In an area identified as having positive viability in the 2014 Economic Viability Study (Keppie Massie).

**Suitability**  
Grade II listed building. Understood to be poorly suited for conversion to housing.

**Availability**  
Submitted to the 'Call for Sites' in 2007. Current owner intentions are unknown.

**Accessibility**
- Primary School (800 m) | Y  
- Local Centre (800 m) | Y  
- Health (800 m) | Y  
- Railway station (800m) | Y  
- Bus Stop (400) | Y  

**Conclusion**
Call for Sites submission in 2007. The majority of the site is occupied by a grade II listed building and demolition would be unacceptable. The premises are considered to be poorly suited to conversion to housing and the site is therefore not included in the identified housing supply.

Suitability
Designated 'Urban Greenspace' and subject to a local wildlife designation. Partially in Flood Zones 2 and 3. Unlikely to be suitable for housing.

Availability
Submitted to the 'Call for Sites' in 2007. Current owner intentions are unknown.

Achievability
In an area identified as having positive viability in the 2014 Economic Viability Study (Keppie Massie).

Site Description
Sand dunes adjacent to the Southport Marine Lake.

Conclusion
Designated as an Urban Greenspace and a Site of Local Biological Interest. Adjacent to a SSSI. Approximately 30% of the site is within Flood Zones 2 and 3. The site is not included in the identified housing supply due to these constraints.

### Suitability

In a 'Primarily Residential Area'. Within the West Birkdale Conservation Area.

### Availability

Call for Sites submission in 2014.

### Achievability

In an area identified as having positive viability in the 2014 Economic Viability Study (Keppie Massie).

### Site Description

Residential garden

### Conclusion

Call for Sites submission. Small plot that could accommodate a single dwelling. However, the site is within a Conservation Area and the development of this plot would be detrimental to the character of this protected area. Not included in the identified housing supply.
**Site ref**: 9648

**Suitability**
In a 'Primarily Residential Area'. Housing development acceptable in principle.

**Availability**
No owner interest in developing the site.

**Achievability**
In an area identified as having positive viability in the 2014 Economic Viability Study (Keppie Massie).

**Site Description**
Cleared site. Narrow awkward shape.

**Conclusion**
Cleared site owned by a local Housing Association. Originally submitted to the Call for Sites, however the owner has now confirmed they are no-longer seeking to develop the site. Not included in the identified housing supply.

(dwellings per ha)

Accessibility
Primary School (800 m) Y
Local Centre (800 m) Y
Health (800 m) N
Railway station (800m) Y
Bus Stop (400) Y

Suitability
An employment allocation in the 2006 UDP and proposed as an employment allocation in the emerging Local Plan. Access is unsuitable for a residential development.

Availability
Site being promoted for commercial uses.

Achievability
In an area identified as having positive viability in the 2014 Economic Viability Study (Keppie Massie).

Site Description
Vacant area of land currently occupied by disused buildings and hardstanding. Surrounded by industrial premises.

Conclusion
Site suggested for housing development by a local campaign group through the Local Plan consultation. The site is an existing and proposed employment allocation. Access would be through an existing industrial estate and would give rise to safety issues and conflicts with commercial vehicles. The site is also not available for housing and is being promoted by the owner for commercial uses. Not included in the identified housing supply.

#### Assumed Density (dwellings per ha)

#### Site Description
Undeveloped land in the centre of Sefton Village.

#### Conclusion
Call for sites submission. Urban Greenspace site within a Conservation Area. The site contains a Scheduled Ancient Monument and is also designated as a Site of Local Biological Interest. Given these constraints it is not considered to be a realistic housing site.

#### Suitability
Designated as Urban Greenspace and a Local Wildlife Site, and contains a Scheduled Ancient Monument. Residential development unlikely to be acceptable.

#### Availability
Submitted to the 'Call for Sites' in 2007. Current owner intentions are unknown.

#### Achievability
In an area identified as having positive viability in the 2014 Economic Viability Study (Keppie Massie).

Primary School (800 m) N
Local Centre (800 m) N
Health (800 m) N
Railway station (800m) Y
Bus Stop (400) Y

---

**Suitability**

In a 'Primarily Residential Area'. Housing development acceptable in principle.

**Availability**

Promoted to the 2014 Call for Sites.

---

**Achievability**

In an area identified as having positive viability in the 2014 Economic Viability Study (Keppie Massie).

**Site Description**

Residential garden

---

**Conclusion**

The site is too small to accommodate 5 dwellings, and is therefore below SHLAA size threshold specified in National Planning Policy Guidance. Not included in the identified housing supply.

**Suitability**
- In a 'Primarily Residential Area'. Occupied by a grade II listed building.

**Availability**
- Council owned building that is currently disused. Site is likely to be developed for non-residential uses.

**Achievability**
- In an area identified as having weaker viability in the 2014 Economic Viability Study (Keppie Massie). A grade II listed building - conversion costs likely to be significant.

**Site Description**
- Listed building adjacent to railway and new build housing estate.

**Conclusion**
- Grade II listed building in Council ownership. The Council is continuing to seek a future use for the building and is exploring potential funding sources. However, the site is now most likely to be converted to uses other than housing.

- Local Centre (800 m): N  
- Health (800 m): Y  
- Railway station (800 m): Y  
- Bus Stop (400 m): Y

**Suitability**

In a 'Primarily Residential Area'. Housing development acceptable in principle.

**Availability**

Submitted to the 'Call for Sites' in 2007. Current owner intentions are unknown. Likelihood of multiple leases.

**Achievability**

In an area identified as having weaker viability in the 2014 Economic Viability Study (Keppie Massie).

**Site Description**

Small modern industrial estate adjacent to a raised dual carriageway.

**Conclusion**

Submitted through the Call for Sites in 2007. However, no subsequent interest in residential development has been expressed. Intensively used industrial estate with likelihood of multiple leases, and adjacent to a raised dual carriageway. Not included in the identified housing supply due to these constraints.

| Assumed Density |
| (dwellings per ha) | |

#### Site Description

Vacant apartment block

#### Suitability

In a 'Primarily Residential Area'. Housing development acceptable in principle.

#### Availability

Vacant Council-owned building that is currently being marketed for disposal.

#### Achievability

In an area identified as having weaker viability in the 2014 Economic Viability Study (Keppie Massie).

#### Conclusion

Vacant Council-owned apartment block currently being marketed for disposal. Most likely to be refurbished and brought back into use. However, this is unlikely to generate a net change in the number of dwellings. Therefore excluded from the identified housing supply.

**Site Description**
- Vacant site

**Suitability**
- In a 'Primarily Residential Area’. Housing development acceptable in principle.

**Availability**
- Council owned site. No plans to dispose for development.

**Achievability**
- In an area identified as having weaker viability in the 2014 Economic Viability Study (Keppie Massie). Culvert underneath the site is a major constraint to development.

**Conclusion**
- Vacant site that is owned by Sefton Council. A culvert runs underneath the site which is a major constraint to development. Recently granted planning permission (ref DC/2013/00122) for use as a community garden. The site is also too small to accommodate 5 dwellings, and is therefore below SHLAA size threshold specified in National Planning Policy Guidance. Not included in the identified housing supply.

Accessibility

Primary School (800 m): N
Local Centre (800 m): Y
Health (800 m): Y
Railway station (800m): Y
Bus Stop (400): Y

Suitability

Housing development acceptable in principle.

Availability

Council-owned site. Not available for development.

Achievability

In an area identified as having weaker viability in the 2014 Economic Viability Study (Keppie Massie).

Site Description

Council owned car park and office buildings

Conclusion

Council owned site that is partly in use as a staff car park. The existing office buildings are leased to the Probation Service. Unclear whether this will become surplus in the foreseeable future. Not included in the identified housing supply.
**Site ref**: 9521  
**Address 1**: 50 Fernhill Road  
**Settlement**: Bootle

**Source** Call for Sites 2008  
**Site type** Brownfield  
**Site area (ha)** 2.3213

**Site Description**  
Currently in use for industrial / commercial purposes.

**Accessibility**
- Primary School (800 m) Y
- Local Centre (800 m) Y
- Health (800 m) Y
- Railway station (800m) N
- Bus Stop (400) Y

**Suitability**
Proposed to be allocated as a Primarily Industrial Area in the emerging Local Plan. Surrounded by existing industrial / commercial premises.

**Availability**
Submitted to the 'Call for Sites' in 2008. Current owner intentions are unknown.

**Achievability**
In an area identified as having weaker viability in the 2014 Economic Viability Study (Keppie Massie). Potential for contamination given historic uses.

**Conclusion**
Constrained site that is surrounded on by existing industrial / commercial premises. Partially located on the route of a former railway line and therefore potentially subject to contamination. Active businesses occupy the majority of the site. Unlikely to be a suitable housing site given adjacent uses, and proposed to be designated as a Primarily Industrial Area in the emerging Local Plan. Not included in the identified housing supply.

---

**Suitability**
Allocated as an 'Opportunity Site' in the UDP where residential development is acceptable in principle.

---

**Availability**
No known owner interest in developing the site

---

**Achievability**
In an area identified as having weaker viability in the 2014 Economic Viability Study (Keppie Massie). Conversion costs may be significant. Potential for contamination given historic industrial use.

---

**Site Description**
Historic commercial buildings in a largely residential area

---

**Conclusion**
Business premises in active use. Within a Conservation Area and demolition of the existing buildings would not be acceptable. Subject to potentially significant conversion and remediation costs and in a weaker market area. No known owner interest in developing the site for housing. Not included in the identified housing supply.

- Primary School (800 m) Y
- Local Centre (800 m) Y
- Health (800 m) Y
- Railway station (800m) N
- Bus Stop (400) Y

**Availability**
No known owner interest in developing the site

**Suitability**
An employment allocation in the 2006 UDP, and within a 'Primarily Industrial Area'. Proposed as an employment allocation in the emerging Local Plan.

**Achievability**
In an area identified as having weaker viability in the 2014 Economic Viability Study (Keppie Massie). Adjacent sites are known to be significantly contaminated.

**Site Description**
Area of hardstanding adjacent to the Leeds-Liverpool canal and industrial uses.

**Conclusion**
Site suggested for housing development by a local campaign group through the Local Plan consultation. The site is an existing and proposed employment allocation, and is surrounded by industrial uses. The site is not known to be available for housing and there is no history of residential enquiries. Not included in the identified housing supply.

**Suitability**
Allocated for housing development in the 2006 Unitary Development Plan.

**Availability**
The majority of the site is currently used as a bus depot.

**Achievability**
In an area identified as having weaker viability in the 2014 Economic Viability Study (Keppie Massie). Adjacent sites are known to be significantly contaminated.

**Site Description**
Arriva bus depot and former Parkside Social Club

**Conclusion**
Site currently occupied by a bus depot, and there is no indication that Arriva are looking to relocate away from the site. Likely to be contaminated given historic uses and known contamination on adjacent sites. Not available and therefore excluded from the identified housing supply.

Assumed Density (dwellings per ha)

Accessibility
Primary School (800 m) Y
Local Centre (800 m) Y
Health (800 m) Y
Railway station (800 m) Y
Bus Stop (400) Y

Suitability
Housing development likely to be acceptable in principle.

Availability
Surplus site owned by National Grid. The site is timetabled for disposal in the mid-2020s. It is uncertain whether this site will be disposed of for residential or commercial development at this stage.

Achievability
In an area identified as having weaker viability in the 2014 Economic Viability Study (Keppie Massie). Known to be significantly contaminated.

Site Description
Large disused former gas works

Conclusion
The site is known to be significantly contaminated and has been registered under Part 2a of the Environmental Protection Act since 2004. Also designated as a 'Special Site' for controlled waters, and may have gas infrastructure beneath. National Grid have confirmed that they do not intend to dispose of the site until the mid-2020s, and disposal for residential use is uncertain at this stage. Not included in the identified housing supply.

**Assumed Density** (dwellings per ha)

**Site Description**

Derelict site opposite an industrial area.

**Accessibility**

- Primary School (800 m) Y
- Local Centre (800 m) Y
- Health (800 m) Y
- Railway station (800 m) Y
- Bus Stop (400 m) Y

**Availability**

Land in multiple ownerships. No known owner interest in developing the site.

**Suitability**

In a 'Primarily Residential Area'. Housing development acceptable in principle.

**Achievability**

In an area identified as having weaker viability in the 2014 Economic Viability Study (Keppie Massie).

**Conclusion**

Submitted through the Call for Sites in 2008, although not by any of the land owners. The site is vacant and derelict, and a Land Registry search has confirmed that the site is in up to 6 different ownerships. Directly opposite an industrial estate and in a weak market area. Not included in the identified housing supply due to these issues.
Appendix 3 – Questionnaire responses
Questionnaire - empty upper floors above shops

Sefton Council is currently preparing a Local Plan for the Borough. It has been suggested to the Council that a significant proportion of housing need could be met by converting empty upper floors above shops etc. to housing, both in town centres and above shopping parades.

This questionnaire is being circulated to gain further intelligence on this issue. We would like to publish completed questionnaires, but will only do so with your consent (see question 5 below).

Your name: Brendan Gleeson
Position: Development Director
Organisation: One Vision Housing
Date of completion: 09/07/2015

1. What experience do you / your organisation have of working on this type of development?

Although I find it very sad that there are so many unused residential units over shops running the length of Lord Street in particular, LOT's is something that I have dealt with on many occasions in the past and unfortunately my experiences haven't been good ones.

Apart from the difficulty that Housing management have in finding tenants for this type of unit, delivering out such accommodation has always been both a financial and legal nightmare.

Any of the schemes that I was involved in, albeit quite some time ago, did not stack up financially as the costs were disproportionate to the level of rent that you could charge and again, from memory the level of grant that you could obtain to help support the capital cost, both in mine and I suspect anyone else involved in LOT's, was totally inadequate.

2. Are there any practical constraints that apply to this type of development?

I seem to recall that the biggest difficulty was with the legal aspect of LOT's and in particular the insurance cover that the shop owners, leaseholders had with their insurance cover if the access to the flat over the shop was not a completely independent one and that residential access could only be gained via access through the shop itself.
This of course caused problems that in a lot of cases proved insurmountable in terms of the different leases, commercial to residential and vast amount of legal fees were expended in trying to resolve these issues.

The biggest constraint of all however, is simply the lack of demand for this type of living. OVH do have a small number of LOT's, however despite some of them being in desirable areas and in good condition, they are not popular in comparison to other schemes.

3. **Is your organisation likely to promote / deliver a significant number of dwellings on such sites?**

   At present, One Vision Housing are not likely to promote or deliver any developments of this type.

4. **How likely is it that a significant increase in delivery will be achieved from these sites over the next 15 years (compared to past trends)?**

   Again. Due to the constraints identified in questions 1 and 2 of this survey, OVH are not likely to promote or deliver any developments of this type.

5. **Are you happy for your completed questionnaire to placed in the public domain?**

   YES

Your assistance is greatly appreciated.

<td>30th July 2015</td>
</tr>
</tbody>
</table>

1. What experience do you / your organisation have of working on this type of development?
   
   Plus Dane has relatively recent experience in developing residential properties over shops at Castlefields, Runcorn.

2. Are there any practical constraints that apply to this type of development?
   
   The properties are naturally smaller property types and, depending on the type of retail operation below, will only appeal to a smaller customer base.

3. Is your organisation likely to promote / deliver a significant number of dwellings on such sites?
   
   Plus Dane does not currently have any sites in Sefton, its unlikely we will consider this type of opportunity in the next 5 years.

4. How likely is it that a significant increase in delivery will be achieved from these sites over the next 15 years (compared to past trends)?
   
   Unlikely

5. Are you happy for your completed questionnaire to placed in the public domain?
   
   YES

Your name: Hilary Roberts
Position: Deputy Chief Executive
Organisation: Adactus Housing Group
Date of completion: 3 June 2015

1. What experience do you / your organisation have of working on this type of development?
   - Entering into long leases with building owners
   - Management of properties on behalf of private landlords

2. Are there any practical constraints that apply to this type of development?
   - Significant practical constraints exist including:
     - Lack of ground floor accommodation
     - Lack of parking
     - Access constraints (e.g., insecure rear access)
     - Poor design of existing units creating difficult to remodel footprints
     - Costs associated with the uplifts required to meet modern Building Regulation Standards
     - Expectations of building owners with regard to financial return

3. Is your organisation likely to promote / deliver a significant number of dwellings on such sites?
   No, Adactus are not considering any such opportunities at present and would not prioritise these opportunities in the future due to concerns of the poor quality of accommodation and costs that conversion offers as well as the long-term sustainability of the properties. This is evidenced by the issues currently experienced with sustainability of the properties that Adactus manage at present.

4. How likely is it that a significant increase in delivery will be achieved from these sites over the next 15 years (compared to past trends)?
   Very unlikely
5. Are you happy for your completed questionnaire to placed in the public domain?
   YES

Your name: John Barnes
Position: Partner
Organisation: Fitton Estates & Arnold and Phillips
Date of completion: 29th July 2015

1. What experience do you / your organisation have of working on this type of development?

Over 30 years

2. Are there any practical constraints that apply to this type of development?

Many as per our report / general comment 5th November 2013
For Example:
Planning.
Cost of conversion, fireproofing & Sound etc.
Bank funding & commercial investment return.
Dedicated amenity space.
Quality of accommodation.

3. Is your organisation likely to promote / deliver a significant number of dwellings on such sites?

As per report 2013 report

4. How likely is it that a significant increase in delivery will be achieved from these sites over the next 15 years (compared to past trends)?

Little increase likely as per report without substantial economic change and grant assistance.

5. Are you happy for your completed questionnaire to placed in the public domain?

YES
Dear Alan

Re: Potential Housing & Flats above shops

Further to our various recent conversations in regard to the ongoing proposed Local Plan you will be aware of my many views and opinions regarding the practical delivery of housing in the Borough respecting the due process, the commercial considerations and the necessity for investment in what is still a commercially and economically difficult world at the present time.

As you will be aware our Practice is the largest commercial and residential combined agency with our various brands including Fitton Estates and Arnold & Phillips and we have our internal planning consultancy, Consilium, to also assist with our views. I therefore feel that we are well placed to add comment as we have traded for in excess of thirty years and with my colleagues and Partners namely Graham Bowling, Nigel Little, RICS Surveyors and Phil Hardwicke with Graham having the corporate experience of having been a Partner at Knight Frank, Liverpool previously.

Over the last few years we have attended many of the forums and monitored the process of the Local Plan, both in Sefton and West Lancs and appreciate the necessity for investigation of all potential opportunities to generate housing. Therefore in connection with the principle of flats above shops we are happy to report as follows on a generalised basis, as there will obviously be a number of individual cases where the potential could be considered, respecting all the normal considerations.

As you are aware the commercial property market has been in decline for a number of reasons and although there are signs that the residential market is becoming more buoyant, one of the largest factors in commercial development is the ability to generate funding. The banks generally are still very restrictive in the commercial market and this is also a factor that would affect any commercial development of secondary vacant space, above shops, offices or redundant commercial property. The issues that would affect the conversion of vacant space above shops will be as follows.

Planning permission would be required and although there is an in principle default that would suggest this could be a reasonable concept, the practicalities would inevitably need to be investigated on a commercial basis and ultimately there is a risk that the type of property generated might not be of a quality that the Public and Planning Committee would wish to endorse. Invariably properties often have rear access, fire escapes, poor outlook and no parking and ultimately any investment by landlords would have to be considered against the conversion costs and whether the flats could ultimately generate individual titles to assist in fundraising. The final value of poor quality low rental flats would also deter investment.
Commercial Landlords have also suffered the consequences of the downturn in the market and the affect of the internet on retail rent values, where in certain cases these have halved during the recession, as has been seen on a number of occasions through our office. Therefore expecting underfunded landlords to overcome the practical issues and then obtain additional finance generating sufficient funding to deal with the costly Building Regulation difficulties of soundproofing, fire proofing, insulation on all the normal factors that affect the separation of flats is a difficult and unlikely probability. Most Landlords clearly are lacking in income, at the present time and therefore to reinvest in what would be considered to be poor quality flats which would be unlikely to be separately titled would mean that flats would only be suitable byway of a general comment to the low end rental market rather than the sale of such flats.

With the potential difficulties of parking, rear access, fire escapes and outlook in many of the cases it would be seen that landlords would be only likely to attract the low level rent values and private landlords may be concerned with the management difficulties that then often occur particularly if there are a number of flats in such developments over a number of floors.

Separately as you will be aware there may be tenure issues where many areas such as Southport are historically covered by restrictive covenants, where ground landlords would also have to provide consent which would generate development costs and cause legal delays and cost or even prevent development. There are also practical constraints, for example using Lord Street, Southport. Lord Street has many narrow shops with space above where access by an internal staircase to separate the upper floors into individual flats would be complicated, costly and the outlook to the rear of Lord Street is poor and invariably without parking. Investing and respecting building regulations to create say one large flat with low return is very unlikely to be socially or a realistic economical option. To generate better quality apartments in many cases you would require joint owners of adjoining properties to agree communal stairwells and major structural alterations, both internally and externally, which are very unlikely given a lot of the properties are in institutional or large portfolio ownerships. A further problem in many cases is the normal front to back construction which invariably doesn’t allow for side windows, due to the constraints of parades/terraces.

We have dealt over many years with many individual cases where the flat conversion aspect has been considered but when one reviews the returns, the costs, the practical difficulties as indicated above very few of any of those developments have proceeded. There are clearly many social and economic pressures over and above those indicated above and whilst I accept that there may be specific cases where individual shops outside the town centre locations such as Lord Street could be considered more easily these must be taken on an individual basis and it is unlikely that they would generate significant numbers for all the constraints and issues as raised above there may be possibilities where in due course if parades of shops outside town centres become redundant as we are seeing with the predominance of the convenience stores and internet being developed at the present time then as those shops affectively lose commercial life then the ground floor areas may become available and although our view of ground floor shops is that often they front onto pavements in such a manner that they would not generate high quality apartments or flats there would be a possibility for a number of these properties to be potentially acquired, where a row of such shops could then either be demolished or redeveloped.

I enclose an example of a property in Aughton Road Birkdale which was previously a number of shops with flats above which we are now selling. The repairs/conversion costs have affected the value to such a decrease that most enquiries have concluded they would be better demolished. There are other examples that we can offer with our general view. I would therefore comment that not on a site specific basis, we feel in practice that the number of flats likely to be generated when taking the total available space above shops into account would be a very low percentage assuming
that you had the economic improvements, funding and willingness from owners/landlords to invest in such decisions and separately the financial institutions prepared to back such proposals.

Overall therefore I would not feel that Sefton should invest significant costs in professional time to identify the potential of such proposals but as an Authority merely continue to promote and assist landlords through the planning process as is the case presently. If an individual property can be developed it is likely that private landlords will investigate this themselves but there is likely to only be a small percentage relative to the Local Plan process when one considers the required quality housing and the difficulties in timescales and supply with the likelihood that any conversion would be problematical, longwinded with financial and other practical restraints.

I must reiterate that this is an internal general opinion and report by way of a general commentary and we will be happy to investigate further the principles discussed with your direct instructions or with any consultants you may wish to instruct.

It may be that in due course the Government or Local Authorities may generate grant assistance that may overcome some of the practical and economic barriers of delivering such opportunities but my own view is that this probably unlikely at the present time given that Local Authorities are still having to make cuts rather than invest generally. There is a small potential for such conversions to be looked upon as offsite affordable solutions for release of alternative new sites for market housing, which is required. It is also important that we promote deliverable and sustainable principles of expansion and investment in the population and economy within the Borough and insure that the population expands rather than contracts with the much needed quality homes.

Therefore I am satisfied that over the next few years the factors I have detailed above are unlikely to change therefore delivery of significant numbers of converted flats above shops without grant assistance is unlikely. I would be happy to work further on this point and trust our initial broad views will assist you in focussing your requirements for further advice going forward.

Please do not hesitate to contact me in the meantime if you require any further discussions or information.

Yours sincerely

John Barnes
Appendix 4 – Letter from OneVision Housing dated 2nd July 2015
Dear Alan,

Re: OVH Development Summary

Further to our recent meeting, I am writing to formally comment on the issues that we discussed. I would be happy for you to place this letter in the public domain.

As you are aware, I have a long track record of working on developments in Sefton, both in my current role as Development Director at One Vision Housing, and also in my previous role as Director of Development at Liverpool Housing Trust/Vicinity. I am very familiar with the geography of the Borough, and of the types of development opportunities that are likely to come forward over the course of the Local Plan.

My comments on the issues we discussed are set out below:

Future Development Programme

One Vision Housing were formed in 2006 following the transfer of the Sefton council housing stock. We received our first grant support from the HCA in 2013 and have since entered into a full FDA to assist in the delivery of the 2015/18 HCA funded programme.

We are currently building up a development programme of sites in Sefton. I have provided you with a list of the sites in our short-term development programme that are capable of accommodating 5 or more dwellings for inclusion in your SHLAA study.
In addition to this list of sites, it is our intention to continue to acquire new sites in Sefton. The majority of the sites we acquire are likely to be small to medium sized, although we may also be interested in delivering larger schemes (including partnering house builders to deliver s106 affordable housing).

**Demolition Programme**

As you are aware, One Vision has demolished a number of properties in recent years in order to remove / replace obsolete and outdated stock. In addition to those properties that have already been demolished, three further tower blocks will be demolished during the financial year 2015/16. These are listed below:

- Mersey House, St James Drive, Bootle (91 units);
- Montgomery House, Kings Park, Seaforth (58 units); and
- Churchill house, Kings Park, Seaforth (58 units).

Beyond these three tower blocks there are no other properties in our demolition programme, and we do not intend to carry out any further large scale demolitions in the foreseeable future.

**Development of OneVision-owned Garage Courts**

One Vision own a large number of garage courts in Sefton. These are mostly located in Bootle and Netherton, but are also present in other settlements including Litherland, Maghull and Formby.

With a small number of exceptions, it is not currently possible to predict which garage courts will become available over the coming years, and we are reviewing this on an ongoing basis. However, we anticipate that a minimum of 100 dwellings will be delivered from this source over the next 10 years, and it would be reasonable to assume delivery of around 10 homes per annum over this period.

**Sefton’s Windfall Assumptions**

I understand that Sefton proposes to include a “windfall” contribution in its SHLAA study to account for development on unanticipated sites. You have provided me with a summary of this contribution, including a rationale to justify why these sites will continue to come
forward in the years ahead. This contribution would apply to sites across the whole Borough between 2015 and 2020 and solely to sites in Crosby and Southport from 2020 onwards.

In my experience, the assumptions that you have made appear to be reasonable. It is inevitable that smaller sites that have not previously been granted planning permission for housing will become available in the years ahead (as they always have done). For example, I am often made aware of potential development opportunities on sites with no previous planning history. It is also reasonable to assume that Victorian areas such as Southport, Crosby, and Bootle will produce more unanticipated sites than the parts of the Borough which are dominated by modern planned housing estates. Largely Victorian areas will inevitably contain more commercial buildings in residential areas, and larger properties that are suitable for conversion.

I trust this will be of assistance to you and please do not hesitate to contact me if you require any further information

Yours sincerely

Brendan Gleeson
Development Director
